

Milk Distribution SaaS Platform - Product Document (Updated Version)

Vision

A multi-tenant SaaS platform connecting milk distributors and customers with subscription management, delivery planning, billing, notifications, and platform administration.

User Roles

Super Admin, Distributor, Customer.

Super Admin Modules

Dashboard, Distributor Verification, Customer Management, Products, Subscriptions, Deliveries, Billing, Notifications, Settings, Platform Monitoring.

Distributor Modules

Dashboard, Customer Management, Products & Pricing, Delivery Slots, Subscriptions, Delivery Lists, Billing, Payments, Reports, Notifications, Settings.

Customer Modules

Dashboard, Find Distributor, Subscriptions, Orders/Requests, Billing, Notifications, Profile, Delivery Schedule.

Product Types

Milk, Curd, Paneer, Eggs, Lassi, Ghee, Butter, Khoya. Milk variants support Cow, Buffalo, Goat, Camel and fat-based pricing.

Subscription Types

Daily, Alternate Day, Weekdays, Weekly, Monthly. Future support: custom days and vacation mode.

Core Flow

Distributor setup → Pricing → Delivery Slots → Customer Registration → Distributor Discovery → Subscription → Delivery List Generation → Billing → Payments.

Readiness Rules

Customers can subscribe only when distributors have active pricing and delivery slots configured.

Notifications

Customer and distributor communication for pause requests, extra milk requests, delivery updates, and service notices.

Future Scope

Wallets, Online Payments, IoT integration, Route Optimization, Mobile Apps, OTP Login, Smart Billing Automation, Analytics, Loyalty Programs.

Current Architecture Status

Working SaaS MVP with role-based dashboards, customer onboarding, distributor setup enforcement, subscription engine foundation, delivery and billing workflows.

Recommended Next Milestones

1. Complete end-to-end testing of Delivery and Billing. 2. Improve distributor onboarding wizard. 3. Add customer multi-distributor management. 4. Add OTP login UI. 5. Implement real delivery calendar. 6. Add online payment gateway and wallet system.
